

POPULATIONS IN PRECARIOUS SITUATIONS (PSP)

DURATION : 12 days

LANGUAGE: English

GOAL OF THE PSP

Train participants to answer to medical humanitarian emergency situations in an appropriate way and in accordance with MSF policies

TARGET GROUP

- Priority to expatriate medical personnel who are or could become field coordinators and national deputy coordinators (field or capital coordination)
- Between 12 and 20 months of MSF experience in at least two different types of programme, at least one of which was an emergency

OBJECTIVES

By the end of the course, the trainees will be able to:

- Evaluate the population needs (medical and essential: Watsan, shelter, food, security)
- Define intervention strategies adapted to health problems, to the context, to the population and to MSF objectives and policies
- Plan the implementation of programme activities
- Ensure follow up of population health status
- Ensure programme monitoring and re-orientation according to context evolution

MODULES

- 1) Epidemiology**
- 2) Nutrition**
- 3) Vaccination**
- 4) Water, hygiene and sanitation**
- 5) Emergencies**

TEACHING TECHNIQS

Lectures, discussions/debates, case studies, demonstrations, workshops, outdoor exercises, videos, group work...
